

Hancock County Public Schools

2022-23 Comprehensive School Improvement Plan (CSIP)

Rationale

School improvement efforts are a collaborative process involving multiple stakeholders. Through the improvement planning process, leaders focus on priority needs, funding, and closing achievement gaps among identified subgroups of students. When implemented with fidelity, the Comprehensive School Improvement Plan (CSIP) cultivates an environment that promotes student growth and achievement.

While the focus of continuous improvement is student performance, the work must be guided by the aspects of teaching and learning that affect performance. An effective improvement process should address the contributing factors creating the learning environment (inputs) and the performance data (outcomes). Through the Needs Assessment for Schools, priorities were identified and processes, practices, and/or conditions were chosen for focus. This goal building template will assist your improvement team to address those priorities and outline your targets and the activities intended to produce the desired changes. Progress monitoring details will ensure that your plan is being reviewed regularly to determine the success of each strategy.

Please note that the objectives (short-term targets) set by your school under the Achievement Gap section of this planning template will be used by the district's superintendent to determine whether or not your school met its targets to reduce the gap in student achievement for any student group for two consecutive years as required by KRS 158.649. Likewise, operational definitions for each required planning component can be found on page 2 of the planning template.

For those schools operating a Title I School-wide Program, this plan meets the requirements of Section 1114 of the Every Student Succeeds Act as well as state requirements under 703 KAR 5:225. **No separate School-wide Program Plan is required.**

Requirements for Building an Improvement Plan

- The required goals for elementary/middle schools include the following:
 - State Assessment Results in reading and mathematics
 - State Assessment Results in science, social studies and writing
 - Achievement Gap
 - English Learner Progress
 - Quality of School Climate and Safety
- The required goals for high schools include the following:
 - State Assessment Results in reading and mathematics
 - State Assessment Results in science, social studies and writing
 - Achievement Gap
 - English Learner Progress
 - Quality of School Climate and Safety
 - Postsecondary Readiness
 - Graduation Rate

Consolidated District Improvement Plan based on individual school goals for achievement:

1: State Assessment Results in reading and mathematics

North Hancock Elementary School:

By Spring 2024, the percentage of students scoring Proficient/Distinguished will be 50% in the area of Reading. By Spring of 2024, the percent of students scoring Proficient/Distinguished in Math will be 55% according to State Assessment.					
Objective	Strategy	Activities	Measure of Success	Progress Monitoring	Funding
Objective 1 By Spring 2023, the percent of students scoring Proficient/Distinguished in Reading will move from a 39% in Spring of 2022 to a 44% in Spring of 2023.	KCWP 5: Design, Align, and Deliver Support	Mustang Time - daily intervention/enrichment time in all grades K-5	MAP Growth FastBridge Reading Inventories Formative/ Summative Assessments K- Prep	MTSS Data Sheet FastBridge Progress Monitoring PLC Protocol	
		GAP Coordinator, Wendy Kenny, will provide intervention support to classroom teachers. In addition, she is currently receiving training in Orton Gillingham as well as LETRS to support teachers as well as students during tiered intervention time.	Reading Inventories MTSS Data Sheet MAP Growth FastBridge Formative Assessments	FastBridge Progress Monitoring	ESSER Funds Title I Funds

	Students who continue to need additional support and fall below the 20%ile on MAP in reading, will be placed in RTI. Research based interventions specific to each child's needs will be used, data tracked, and progress monitored. Middle School:

The middle school will improve reading scores at the proficient level from 51% to 60% and decrease the number of students scoring at the novice level by 8%.

Objective	Strategy	Activities	Measure of Success	Progress Monitoring	Funding
Objective 1 Improve reading scores at the proficient level from 51% to 60%.	KCWP2: Design and Deliver Instruction	Reading interest level books Continue to require all students to read AR.	Total AR points	MAP	SBDM
		Reading books that are on the students Lexile level. Students will read books as part of the Engage New York curriculum. Place students in an extra reading class who score low in reading based on their MAP scores. Place students in an extra reading class who score low in reading based on their MAP scores.	Performance on summative and formative assessments.	MAP	SBDM
Objective 2 Decrease the number of students scoring at the novice level by 8%.	KCWP2: Design and Deliver Instruction	Students will work on the get more math program each day to help close gaps.	Student performance on assessments.	MAP	District
		Students scoring low in math will attend a problem-solving class		MAP	

High School:

By the Spring of 2025, the percent of students scoring P/D in Reading according to the state assessment will be 80%, in Math. The percent of students scoring P/D will increase to 80%.

Objective	Strategy	Activities	Measure of Success	Progress Monitoring	Funding
<p>Objective 1 By the Spring of 2023, the percent of students scoring P/D in reading will move from 59.5% in 2022 to 65% in 2023.</p> <p>Objective 2 By the Spring of 2023, the percent of students scoring P/D in math will move from 55.6% in 2022 to 57% in 2023.</p>	<p>KCWP 2: Design & Deliver Instruction - Effective Instruction in Every Classroom</p>	<ol style="list-style-type: none"> 1. Teachers will collectively utilize a school wide model of instruction (playlist) while embedding a triangulation with standard based assessments and student data mastery cards. 2. All staff will participate in Professional Learning for best practice strategies focusing on engagement and rigor using the rigor rubric for all tasks and assessments. 3. All staff will participate in weekly Professional Learning Communities focusing on best practice strategies, student needs, and collegiate level collaboration. 	<ul style="list-style-type: none"> ● Improved quality of grade level tasks as evidenced through student work samples shared in PLCs. ● Improved teaching strategies as evidence through walk through data and comparisons. ● Improved quality of assessments evidenced through PLC discussions. 	<ol style="list-style-type: none"> 1. Each month, staff will work collaboratively to analyze data from mastery cards and standards comparisons through CERT testing. 2. All teachers will participate in bi term data analysis for whole school reflection and redirection as needed. 3. PLC agendas will be collected and recorded for whole school feedback from district level administrators. 4. Principal and Leadership Team will lead staff through PLC collections and data analysis. They will provide evidence to the district level administration in aligned data mastery cards, assessments, and playlists. 	<ol style="list-style-type: none"> 1. No funding required.

2: State Assessment Results in science, social studies and writing

North Hancock Elementary School:

By Spring of 2024, the percent of students scoring Proficient/Distinguished in Science according to the State Assessment will be 40%. By Spring of 2024, the percent of students scoring Proficient/Distinguished in Social Studies according to the State Assessment will be 40%. By Spring of 2024, the percent of students scoring Proficient/Distinguished in On-Demand Writing will be 65%.

Objective	Strategy	Activities	Measure of Success	Progress Monitoring	Funding
<p>Objective 1 By the Spring of 2023, the percent of students scoring Proficient/Distinguished in Science will move from 29% in Spring of 2022 to 34%.</p>	<p>KCWP 1: Design and Deploy Standards KCWP 2: Design and Deliver Instruction KCWP 6: Establish Learning Culture and Environment</p>	<ul style="list-style-type: none"> • Pacing Guides, Unit Planners, and Content Calendars were developed with support from Karen Chelf, University of Louisville - Project Link. • Pacing guides have been adjusted and updated for the 2022-23 school year. • Pilot 4th grade PHD Science curriculum • Training of admin through Science Leadership Support Network through PIMSER. • New CKLA reading curriculum includes extensive nonfiction passages/texts that expand science exposure or knowledge. 	<ul style="list-style-type: none"> • Each grade level has a folder in Google Drive where all materials are housed. • Increase in 4th grade science scores on state testing • District discussion of vertical alignment from K-8 	<ul style="list-style-type: none"> • PLC Mid-year check to determine if pacing guides need adjustments to meet student needs K-5 Teachers have a Standards Binder to annotate and track standards being taught. • Formative and summative classroom assessments 	<ul style="list-style-type: none"> • District Funds • Title I

All teachers will participate in bi term data analysis for whole school reflection and redirection as needed. PLC agendas will be collected and recorded for whole school feedback from district level administrators. Principal and Leadership Team will lead staff through PLC collections and data analysis. They will provide evidence to the district level administration in aligned data mastery cards, assessments, and playlists. 	<ol style="list-style-type: none"> No funding required.

3: Achievement Gap

KRS 158.649 requires the school-based decision making (SBDM) council, or the principal if no council exists, to set the school's yearly targets for eliminating any achievement gap. The targets should be established with input from parents, faculty, and staff and submitted to the superintendent for consideration and the local board of education for adoption. In addition to being a statutory requirement, intentionally focusing on the achievement gaps that exist among a school's underserved student populations is also a vital component of the continuous improvement process. Schools should use a variety of measures and analysis when conducting its review of its achievement gaps, including a review of the school's climate and culture. Schools are not required to establish long term achievement gap goals; however, schools must establish yearly targets (objectives).
