

THE STAR DUST

South Hancock Elementary Newsletter

February 6, 2023

South Parents and Guardians,

Midterm progress reports for the 3rd quarter will be sent home on Monday, February 13th. Students continue to work through their grade level standards as we progress toward May and are receiving more new instruction this semester, and less spiraled review of previous learning as in the first semester. They have done a great job in their engagement with our new Wonders reading curriculum, Orton Gillingham and LETRS reading frameworks, Bridges math curriculum, and our new "Young Citizens" Social Studies curriculum. Our teachers are currently preparing to analyze science curricula that will allow them to provide engaging and progressive science lessons for our students that address their grade level science standards and engineering practices. This is exciting news as we continue to work at providing quality resources that amplify and support the wonderful instruction that our teachers provide for our students. We look forward to sharing the progress of our new and innovative resources as we continue to support our students in their academic success.
